

# ALX170

## / Aluminum Lift and Slide Patio Door

- ✓ Double Insulating strips in reinforced polyamide PA 6.6.
- ✓ Possibility of producing bi color profiles.
- ✓ Sealing system using dedicated brushes with polypropylene fibers and rigid fin.
- ✓ Glazing solutions for glazing units ranging from 22 mm to 54 mm in thickness.
- ✓ Permeability system with EPDM/PVC Gaskets.
- ✓ Fixed frame thickness.
- ✓ 2 track system, 7" mm.
- ✓ U= 1.80 W/M2K in a double-glazed configuration.
- ✓ U= 1.30 W/M2K in a triple-glazed configuration.

## HIGH PERFORMANCE

### High Performance Series

This advanced system combines increased performance with excellent thermal insulation, delivering a great U value for improved energy efficiency and year-round comfort. Designed to reach heights of up to 12 feet, it allows for large openings that enhance natural light and spatial openness. Its elegant design features clean lines and refined proportions, while easy functionality ensures smooth, intuitive operation for everyday use.
